### Sannihita Director's Message

Sannihita is keenly hearing too many women and children about their lives pertaining to their caste, creed and religion. The identical issues with most of them is about their discrete sufferings due to the domestic violence they undergo in their families. Most of them are physical and emotional. In this regard, as an effort in getting the needed justice, fewer times they may not become successful. Eventually, they will be either resorting to women NGOs or remain as silent sufferers. In many instances they expect their spouse cooperation in their process of home making.

To counter the issues of domestic violence and sexual abuses, Sannihita stood as a wall of defense for all the women in need, resisting the social, political and economic stress in the society. We deal with their problems in Human rights perspective with the support of the Government Authorities, Police and with Psychology experts. We struggle to safe guard and implement the rights of the children and women, continuously.

V. Usharani,  
Director, Sannihita.

## 5.1. Key Challenges and Resolution

**Table 7:**

S. No	Key challenges faced by Organization	Strategies applied to overcome the Challenges
1	5 newly joined children don't know even the basics. They are not having age appropriate knowledge. Developing those children was a challenge.	We have taken special classes to those children and conducted many fun learning activities. After many initiatives by the team, the children have learnt the basics.
2	The child D. Ashok- 6 <sup>th</sup> when he has returned to the home after completing the holidays, his behavior was completely different as he was missing his home and always used to sit alone without interacting with anyone.	The child counselor and the internal team have given counseling to him. The school teacher has also interacted with the child personally and gave motivation.
3	The child R. Sai Vamshi Goud used to use foul language while talking with the fellow children, he always tend to keep fighting with the younger children upon little issues. Changing the behavior of the child has become a challenge for the team.	Counseling was given to the child by the child counselor. After some sessions, now the child has changed his behavior and adopted a good respectful behavior.
4	Sannihita Boys Home was located in Govt. High School, Trishul Park premises. In this school, Sannihita children are 40 and outside children are around 200. During the school hours, all the children keep using the toilets and premises. When around 240 children are sharing the common premises and toilets, some mess like throwing waste papers etc. will be created in the premises. One day, few school children have damaged some property in the classroom and those students have blamed our children for the damage. Without knowing the reality the teachers also tend to scold our children upon every mistake that were done by the school children.	As the home is located in the Govt. School building, the internal team cannot go against the school management. Except accepting the complaints from them there is no other alternative to the internal team. So, every time the school teachers have complained about our children, our internal team has overcome the situation by apologizing them.
5	Daily study hours are conducted for both primary and high school children separately in the home by our teachers. But few boys don't sit in the study hours attentively. They try to skip the classes by giving silly reasons i.e. they go for toilet / drinking water and doesn't return to the class. They prefer to roam in the home premises rather than attending the study hours. Making such children to develop the concentration was the major challenge for us.	Children were monitored throughout the class and given motivation to the children who have tried to skip the class.
