

**SANNIHITA VIDYA NIVAS GIRLS HOME -
MACLODGUDA**

**ANNUAL REPORT
2020 to 2021**

INTRODUCTION:

We all are facing a pandemic situation right from early days of March. We had All India lockdown, but in spite of this COVID -19 we of Sannihita Girls Home got the strength to survive and give strength & courage to the home children and to the parents.

Due to the covid-19 situation prevailing in the society, some of our residential team have gone to their native place due to which we have sent few children to their parents, guardians up till April 2021.

The home children are attending the online classes through zoom app and Google meetings.

EDUCATION

Remedial Tuition - Teachers Menaz, Jyothi cover the remedial coaching in tuition hours 4.30 PM to 7.00 PM and even volunteered for children to continue their education. We are also monitoring the standards of children education by conducting tests once in a fortnight.

*Ms.Vennela our coordinator is responsible to make the primary children complete their Home Works.

*English Reading and weekly test conducted byMs.Jyothi for High School Children.

Online Classes:

Online classes were taken by Unitedway of Hyderabad and online classes through T.V.Dooradharshan Channel T.Sat (Government) was informed and facilitated. Due to pandemic situation the Home, residential teacher has taken regular classes, made the children practice critical words and sentences on the board without confusion. We made sure that they repeat the sentences so that they can pronounce well. They identified the children who are slow learners and took special care by teaching them with audio visual material made by our team and on line educational material.

HEALTH

GENERAL CHECK UP:

General health check-up was done to children by Dr.Madhuri and one of the health worker Ms.M. Marry.

Our Director Mrs. V. Usha Rani has instructed that if any child has the symptoms of Cold or Cough immediate care and proper medication is to be provided.

BLOOD TEST:

Blood Test to the children was done on dt:25.03.2021

EYE CHECK UP:

COVID TEST:

Covid test was done on dt: 12.12.2020 & also on 15.02.2021 to all the children in the home. Being Covid-19 prevailing in the atmosphere, we have given at most knowledge to the home children about symptoms and the precautionary measures to be taken to cover the covid-19 through drawing, charts. Made them wear the mask, wash the hands or sanitize for every 2hrs and maintain social distance. Frequently GHMC people have been sanitizing the home. Few children who went to their houses were made follow-up calls.

FOOD

Nutritional Food- Our regular food is inclusive of nutritional value, it definitely includes a balanced diet. Children are served vegetables, Milk, Fruits, Chicken and Eggs. The tasty food plays an important role in the children's day to day life as it keeps them happy and healthy. Our home mothers Renuka prepares food with great care and interest. They take charge of the menu chart. The home team does monitor the food. When visitors come home for various reasons like donation or serving food as volunteers, they are requested to give orientation on the issues of food.

Challenges:

Being a COVID period we have faced many challenges like taking care of children health.

(a) Team Trainings:

Trainings attended by Team:

Because of COVID we could not send the team out. Constantly we have been conducting reviews on COVID and precautions to be taken.

April- COVID 19 - Lock down.

The situation was not in our control. We had no idea and no plan. Child welfare Committee and education department could not coordinate with any NGOs to guide them properly. So we had a meeting to discuss the COVID-19 situation, and lockdown period. The team who come from outside could not attend the children by coming to homes, so they were following up of the children who are with their parents, or guardians.

We could not keep all the children as there was no idea about the health program as it was beyond our control. So there were only 25 children who were not having any place to go. The places or persons that they associate with are not sure of food and health nor safety situations. For this reason we had to discuss the program with our staff and children's parents and guardians.

We, parents and Guardians were in great confusion, and dilemma about the safety, food, child, education and health is concerned.

Health Program – COVID – Conduct: We took the situation as a challenge. Children in the home were given a special care. The COVID conduct was established through constant watch, and regular reviews, motivational classes.

Precautions – Children were given masks, sanitizers, two times bathing. We made them to drink warm water, turmeric milk, khada every day. They are continuously following the same program and made it as their routine.

The important precaution that was given to them was to keep things, people that come from outside should be kept away from personal and close contact. Items should be brought in only after 8 hours minimum.

We made GHMC people to sanitize home once in a week

GHMC were given information about the home, police also were informed about the issue, so we made home sanitized once every week. Interaction with parents regarding COVID situation.
