# SANNIHITA GIRLS HOME (SPL)PARKLANE

The picture was taken during the review of the children's' strength and follow-up of action.

Due to the COVID-19- 19 situation, which prevailed in the society some of our residential team have gone to their own place who were migrated for livelihood, made us forced to send our children to their places, guardians till September 2020.

Repatriation process: -After sending few children, we kept the process of follow ups with the parents and guardians by calling them to their phones know the status of each child.

During this period our main focus is to provide them survival kits, health kits, and assist them to reach to the nearest health centers, or clinics in case of any health issues. We provided Ration, Education, Health, and provision kits, clothes and blankets.

We followed up attending online classes or not, if not attending the online classes we are asked the reason for not attending and counseled the parent.

The home children are attending the online classes through Yadagiri Channel and for some children through Zoom app and Google Meetings. Even in what's app also the Worksheets are sent by the teachers and again the answers will be sent to the same questions Worksheet.

The children are so active in all programs. When primary teachers start teaching English online, they can sometimes go too far down the entertainment route with the aim of keeping children engaged. At the other extreme, some primary teachers seem to leave their best practice.

Picture shows the craft work of the children

#### **Engagement with families:**

Usha Madam told to sanitizehands and to see that everyone wears the mask. If anyone has the symptoms of Cold or Cough immediate care and proper medication is to be provided.

Usha madam has provided Ration to the children and parents. We individually went to the parents' home and distributed the ration.

**Agenda of the meeting:** The session was conducted by Director Sri. Usha Rani and attended by the staff Bhargavi, Jaya and C. Rajeshwari.

- ♣ The discussion with the parents was on the precautions to be taken during COVID-19 and the need for maintaining proper sanitation and personal hygiene after taking children to their homes.
- The director has instructed the parents to take good care of children and to wear face masks at homes and in groups. She has also provided masks and provisions required for a month to all of them. She has cautioned them to be very careful in their diet plans which should include nutritious food and warm water with ginger soup daily to combat COVID.
- The staff explained them to be available always on their contact numbers for providing them timely help if anything goes wrong with the children health.
